Liposome?

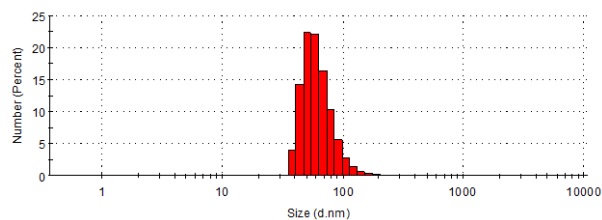

CLX series

CLX 010-01

Ceramide NP 1%, Hydrogenated Lecithin 1%,
Sarcosinate, Caprylic/Capric Triglyceride,
Glycerin, 1,2-Hexanediol, Water

Characteristics of CLX series

- Stabilization of active ingredients
- High storage stability and easy processability
- Uniform and small particle size
- Improved stability

◆ Transmittance after Freeze-thaw cycling test (6 cycles of -4 to 45°C) 0.01% solution, Measurement: Mega U-600
